

non-perforated - no holes!

Embrace Cool Shieldz . . . have no holes. They fully comply with O.S.H.A. rules & regulations regarding exposure to bloodborne pathogens.

Ultra-Clear™ Technology

Still the only dual-sided **anti-fog** product on the market, Cool Shieldz are also anti-glare, anti-stat and optically clear.

top-down fluid protection

Newly designed frame offers a protective ridge for added protection from "the top down".

wraparound frame

Newly designed frame wraps around the head for more secure fit. Will not slide off head. Cool Shieldz are extremely comfortable and accommodating when worn with prescription glasses.

designer colors

Lenses available in five vibrant colors. Color strip serves as a handling guide for assembly keeping the lens fingerprint-free.

economical and affordable

Cool Shieldz are an extremely low cost alternative for eye protection. Re-usable frames further reduce the cost per use.
